

José Alberto Lobos Sanhueza

graphic design • ui design • prototyper

Designer with more than ten years of experience in graphic design and four years as a UI designer, collaborating in projects with clients such as Metrogas, Derco, Santander, Movistar, among others.

Creator of brands and typography. With a focus on the application of modern principles through the lens of culture, personality and technology. Music and black coffee as daily fuels.

Currently **UI designer & prototyper** at NTT DATA Chile.
